

Need a Tech Team That REALLY Knows Gaming? Let Us Help.

WHO IS PLAN A TECHNOLOGIES?

We're award-winning software developers, game developers, project managers, and creatives who build solutions for casinos, lotteries, iGaming companies, sports organizations, FinTech companies, and high tech clients.

WHAT DO WE DO?

We develop new software, upgrade existing software, build games, provide outsourced staff, and consult on many complex tech issues.

WHO HIRES US?

Companies from all over the world, ranging from the biggest brands and resort casinos to the hottest startups.

WHAT MAKES US DIFFERENT?

- Unlike most outsourced dev shops, we've actually built, ran and sold our own successful gaming companies
- We hire less than 3% of all applicants
- We provide 24/7 support, we're easy to work with, and we're affordable
- Our clients own everything we do
- Our company is licensed to work in regulated gaming environments
- Our track record is unmatched

EXAMPLES OF WHAT WE'VE CREATED:

- Player loyalty & rewards systems
- POS, CMS and PMS integrations
- Hybrid and private clouds transitions
- Complete architecture of new systems
- Sports wagering platforms/integrations
- AI/machine-learning/data tools
- Game design: art, math & development
- Front-end refreshes of existing tech
- M&A technology due diligence reports
- PAMs
- Digital wallets and cashless initiatives
- New functionality for slot systems
- Enhanced player marketing systems
- Responsible gaming platforms
- Upgraded security systems
- Indoor navigation & alert systems
- Ticketing & reservation systems
- Kiosks (both financial and marketing)
- Employee monitoring platforms
- New eCommerce tools to burn points
- Game porting and cloning
- Very specific casino & lottery tech
- Upgraded databases
- Chatbots
- Over 180 mobile apps
- Player portals
- Dedicated QA and DevOps teams
- Modernizing legacy systems
- New UI/UX designs
- And much more...

Need a Tech Team That REALLY Knows Gaming? Let Us Help.
