

Amelco is a technology provider that offers a range of products and services, including sports betting platforms, casino games, and associated technology solutions.

Solutions

Lottery and Casino

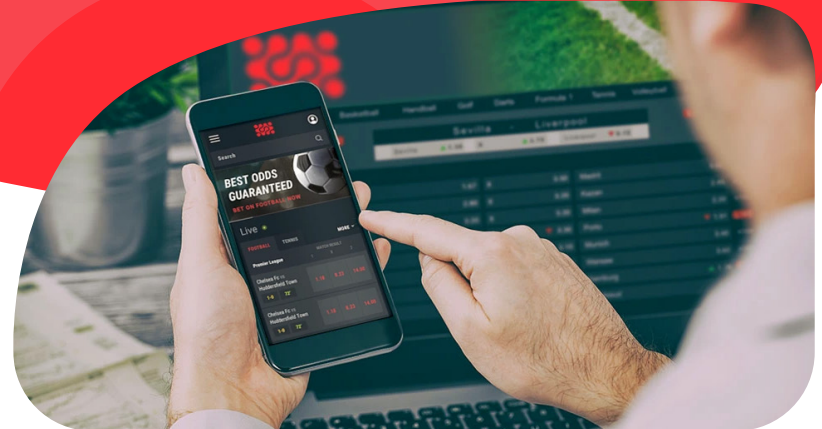

- Offers a range of casino games, including slots, table games, and live dealer options.
- Designed to enhance player engagement and provide a seamless gaming experience.

Managed Services

- Comprehensive support for odds and risk management, trading services, customer support, content management, and compliance and regulation.

Financial Trading

- Trading and risk management tools help operators manage odds, monitor betting activity, and mitigate risks through advanced algorithms and realtime analytics.

Omni Channel and Retail

- Provide technology for retail betting, including self-service betting terminals and point-of-sale systems.
- Enable operators to offer betting services in physical locations.

Sportsbook Platform

- Provides a comprehensive suite of tools for operators, including customizable betting markets, in-play and pre-match betting options, and advanced risk management features.
