nano COSMOS

REAL-TIME VIDEO THAT SIMPLY WORKS

# LIVE VIDEO STREAMING PLATFORM FOR YOUR BUSINESS.

nanoStream CLOUD | Real-time live streaming

nanoStream

REAL-TIME IMMERSIVE EXPERIENCES

nanocosmos offers nanoStream, a real-time video streaming platform built for interactive iGaming and Live Events. **Real-Time Video That Simply Works.**

CORE TECH FEATURES

- **Global CDN:** Our own Content Delivery Network ensures high-quality, reliable streaming designed to deliver 100% uptime across the world.
- **Adaptive Streaming and Player:** The nanoStream technology includes an adaptive bitrate streaming technology including live transcoding, and a light-weight player to ensure seamless playback across any device and network
- **Ultra Low Latency:** Our ultra-low latency streaming capability enables real-time interactivity, allowing external tools such as chat, polls, and other engagement features to work seamlessly with zero delays.
- **Certified Encoding Partners:** We work with a wide range of certified encoding partners for RTMP, SRT, WebRTC, and WHIP, guaranteeing that your encoding process is compatible and reliable.
